Clinical Lectures on the Pulse: its Diagnostic, Prognostic, and Therapeutic Indications. Delivered at St. Mary's Hospital in the Summer Session of 1875, 441, 549, 583, 901

BRYANT, Mr. T.:
Introductory Address to a Course of Lectures on the Principles and Practice of Surgery. Delivered on Oct. 5th, 1875, 725
BUCHANAN, Dr. G.:
Introductory Lecture (Abstract of an) delivered at Glasgow University at the Opening of the Medical Session 1875-6, 654
CURNOW, Dr. J.:
Introductory Lecture on Medical Education; its Spirit and its Method. Delivered at King's College, on Oct. 1st, 1875, 476
FOX, Dr. T.:
Clinical Lecture on Feigned "Erythema Gangrenosum" (a Case of Malingering). Delivered at University College Hospital, 617
HUMPHRY, Dr. G. M.:
Address on Medical Study and Examinations. Delivered at the Liverpool School of Medicine, 550
HEWITT, Dr. G.:
Clinical Lecture on Convulsions due to Morbid Conditions of the Uterus in the Non-puerperal State. Delivered in University College Hospital, 199
HILL, Mr. B.:
Clinical Remarks on Tapping and Draining the Pleura. Delivered in University College Hospital, 87
HUTCHINSON, Mr. J.:
Clinical Lecture on Soft Chancres in their relation to Syphilis, 409, 444
JACKSON, Dr. J. H.:
A Lecture on Softening of the Brain, 335
JOHNSON, Dr. G.:
Lectures on some Nervous Disorders that result from Overwork and Mental Anxiety.
Lecture I., 85
Lecture II., 155
Lecture III., 651
LEE, Mr. H.:
Hunterian Lectures on Syphilis, and on some Local Diseases affecting principally the Organs of Generation. Delivered at the Royal College of Surgeons of England.
Introduction: Inoculation of Syphilitic Blood, 121, 157
Treatment of Syphilis, 235, 267
LUND, Mr. E.:
Introductory Address on Science in Surgery. Delivered at the Owens College (Manchester Royal) School of Medicine, Oct. 4th, 1875, 515
MACLEOD, Dr. G. H. B.:
Introductory Lecture to the Winter Course of Clinical Surgery. Delivered at the Western Infirmary of Glasgow (University Clinic), 760
MAUNDER, Mr. C. F.:
Lettsomian Lectures on the Surgery of the Arteries. (Illustrated by 27 Operations of Ligature by the Author, and other Cases of Disease and Injury.) Delivered before the Medical Society of London, Jan. 1875.
Lecture III.—On Ligature of a Main Artery to Arrest Acute Traumatic Inflammation, 1, 43
RUTHERFORD, Dr. W.:
Address (Abstract of the) in Physiology, delivered before the Annual Meeting of the British Medical Association, at Edinburgh, August, 1875.
The Vivisection Question, 238
SAVORY, Mr. W. S.:
Clinical Lecture on a Case of Ecchymosis of the Scrotum. Delivered at St. Bartholomew's Hospital, 691
SPENCE, Mr. J.:
Address (Abstract of the) in Surgery, delivered before the Annual Meeting of the British Medical Association, at Edinburgh, August, 1875, 239
THOMPSON, Dr. H.:
Clinical Lecture (Abstract of a) on a Case of Syphilitic Disease of the Liver, with peculiar Physical Signs in the Abdomen, 301
THOMPSON, Sir H.:
Lecture (Part of a) Introductory to the Course given at University College Hospital. Delivered on Nov. 15th, 1875, 789
A Clinical Lecture on Diagnosis, delivered at University College Hospital on Nov. 18th, 1875, 793
A Clinical Lecture on the Physical Examination of the Urethra in Cases of Stricture. Delivered at University College Hospital on Nov. 18th, 1875, 827
A Clinical Lecture on the best manner of employing Instruments in Cases of Stricture where much difficulty exists. Delivered at University College on Nov. 25th, 1875, 867
Lee, Dr. R. J., the cutaneous eruption sometimes following vaccination, 265
——, Mr. G. B., Winchester School, 509
——, Mr. H., on inoculation of syphilitic blood, 121, 157; on the treatment of syphilis, 235, 267
Leeds, sanitary difficulties at, 32
Leicester, sanitation in, 291
Leishman, Dr. W., a System of Midwifery (review), 840
Lepers in Bombay, 115, 747
Leprosy in India, 455; anæsthetic, of the left arm, amputation at shoulder-joint, recovery, 420
Lewis and Cunningham, Drs., on the soil in relation to disease, 806
Liebreich's pepsin-essenz, 704
Liernur's system of drainage, 33
Life assurance and medical fees, 614, 680
Life-saving, the law about, 755
Ligatures, traction of, 932
Lincoln, the drainage of, 853
Linen, cast-off, for hospitals, 34; infected, 470
Lipoma, treatment of, 933
Liq. strychniæ, poisoning by, 310
Lithgow, Mr. R. A. D., croup and diphtheria, 39; on the use of nitrite of amyl in nervous cephalalgia, 536
Lithotrity, an inquiry into the condition of fifty-one cases of, in elderly adults, made at periods of one or two years after operation, 3, 29, 103
Liver, case of syphilitic disease of the, 301; acute congestion and inflammation of the, 447; anatomy and physiology of the, 535; acute cancer of the, with pyrexia, 802; cirrhosed, in a child, 803; cirrhosis of the, in a child, 838
Liver-fluke, anatomy and pathological relations of a new species of, 271, 423
Liverpool, overcrowding in, 217; quacks in, 471; the licensing system in, 804; opening of the medical session, 543
Lloyd, Dr. T., the body of Jeremy Bentham, 580
Local Government Board, 830; administrative amenities of the, 635; the work of the, 643
Locked heads in labour, 546
Locock, Sir C., obituary notice of, 184; the will of the late, 436
London Fever Hospital, 609
—— Hospital, the, 503; Medical Society's soirée, 896
—— University, pass-lists of, 262, 329, 720, 822
Long, Dr. M., case of pulmonary collapse caused by hæmoptysis, difficulty of diagnosis, 49
Loomis, Dr. A. L., Lectures on Diseases of the Respiratory Organs, Heart, and Kidneys (review), 346
"Lopsided generations," 69
Lorain, Prof., obituary notice of, 685
Loughborough Infirmary and Dispensary, 544
Low, Mr. S. P., the case of General Reece, 364
Lowe, Dr. G. M., a washing machine, 723
Lowestoft, an inquest at, 783
Lowne, Mr. B. T., introductory address by, at Middlesex Hospital, 521
Lucas, Mr. J. C., case of diabetes mellitus or glycohæmia, 798
Lunacy, 217, 362; reports, 459; in France, 714
Lunatic, a dangerous, 758
—— Asylums, THE LANCET Commission on, 812, 816, 890
—— criminals, 456
Lunatics, the care of, 151; classification of, 542
Lund, Mr. E., on science in surgery, 515
Lung, the lymphatics of the, 633, 702
Lungs, epithelium of the alveoli of the, 181
Lupus, tubercular, of the tongue, soft palate, and gums, 736; and carcinoma, the co-existence of, 502
Lyell, Sir C., inquest on the body of, 75
Lymington board of guardians, the, and retiring allowances, 749
Lymphatic glands, tumours of, 470; new mode of treating tumours of the, 341
—— radicles, three cases of dilatation of, 159
—— System, Anatomy of the (review), 702
Lyon Jones fund, the, 70
Lyons, Mr. I. I., treatment of alveolar abscess, 589

M'Calman, Dr. R. G., case of hæmorrhage and peritonitis after eating cheese, death within fourteen hours, 826
M'Connell, Dr. J. F. P., on the anatomy and pathological relations of a new species of liver fluke, 271
Macclesfield, sanitary condition of, 260
McPermott, Dr. J., obituary notice of, 366
Macdonald, Dr. J. D., a Guide to the Microscopical Examination of Drinking Water (review), 774
McDowall, Dr. T. W., aneurism of the anterior communicating artery, 203
Mackenzie, Dr. J. I., malposition of urethral orifice in a female, 265
Mackintosh's swimming collars, 331
Maclean, Dr. W. C., an appeal, 228, 613; the true composition and therapeutic value of Warburg's tincture, 716
Macleod, Dr. G. H. B., on clinical surgery, 760
Macnamara, Mr. C., the examination for the fellowship of the College of Surgeons, 40; sanitary work in India, 857
Madden, Dr. T. M., on the treatment of some chronic uterine diseases by mineral waters and other remedies, 488
"Made ground," 580
Madras, water-supply of, 714; cholera at, 750
Magistrate, a, and a medical witness, 539
Magnesilyne, 704
Magnifying an office, 437
Maidstone, sanitary condition of, 216; drainage of, 544
MANCHESTER. — Contemplated removal of the Royal Infirmary, 184—Ovariotomy, ib. — Abdominal section, ib.—Manchester Medical School, 577 — Proposed removal of the infirmary, ib. — Provident dispensaries, ib.
Manchester and Salford Sanitary Association, 34
——, provident dispensaries and friendly societies in, 926
—— Royal Infirmary, 711, 791
Mare's milk, 754
Marine medical service, 707, 812
Marlborough School, 314
Marsh, Mr. H., on intussusception, 877
Marylebone, health of, 573, 889
Massater muscle, case of fibroid tumour of the, 833
Maudsley, Dr. H., stealing as a symptom of general paralysis, 693
Maunder, Mr. C. F., on ligature of the main artery to arrest acute traumatic inflammation, 1, 43; an aid to the operation for strangulated hernia, 509; useful mode of excision of the elbow-joint, 695
Maunsell, Dr. D. T. T., obituary notice of, 329; the late, 349; memorial, the, 466, 494, 581, 614, 674
Maxilla, superior, osteo-sarcoma of the, 736
Meadows, Dr. A., the uterus of Harriet Lane, 859
Meat, diseased, in the City, 140; dear, 557
Meconium, researches on, 785, 815
Mediastinal tumour, case of, 586
Medical Act, the Home Secretary on, 175
—— certificates, 321
—— charity, abuse of, 467, 580
—— Defence Association, the, 811
—— education, 753; Sir R. Christison on, 316
—— experts in the daily press, 543
—— fees, 926; important decision on, 173
—— officers of health, 286, 731, 779; what is the value of? 215; new duties of, 319, 604; and infectious diseases, 570; the critical faculty in, 926
—— practitioners, unqualified, 153

MEDICAL SOCIETIES.

CLINICAL SOCIETY.—The operation of iridectomy as performed for optical purposes, 561—Idiopathic tetanus, ib. — Experiences with salicylic acid, 562 — Extensive wound of the knee-joint treated antiseptically, ib. — Curious tumour or malformation of the head, 627—Ulcer of tongue, ib.—The discussion on antiseptic dressing, 628 —Ligature of the femoral artery with carbolised catgut for popliteal aneurism, 737 — Conclusion of the debate on antiseptic treatment, ib. — Acute pyelitis and nephritis, 801 — Acute cancer of the liver, with pyrexia, ib. — Amputation at the hip-joint for fibro-plastic tumour, ib.—Orbital tumour, ib.—The skim-milk treatment of diabetes, 879—Lymphadenoma, ib.
MEDICAL SOCIETY OF LONDON. — Cleft in the hard and soft palates, 595—Hyperpyrexia, ib.—Acute pneumonia, 629 — Hypertrophy of the buttock tissues, ib. — Syncope after violent hæmorrhage, ib. — Strumous disease of the testicle, ib. — Obliteration of depressed cicatrices, 665—Excision of the astragalus and amputation of the foot compared, 739 — "For and against animal vaccination," ib.—Tumour of the palate, 803 — On the rational treatment of common tapeworm, ib. — On a recent epidemic of scarlatina, epidemic sore-throat, and erysipelas, which occurred chiefly in June last in the south-west district of Chelsea, ib.—Excision of the elbow, 881—On pessaries, ib.
OBSTETRICAL SOCIETY. — The discussion on the relation of puerperal fever to the infective diseases of pyæmia, 91—Removal of a pessary from the vagina, 594—Complete inversion of the uterus, ib.—Occurrence in normal labour of lateral obliquity of the fœtal head, ib—Dissection of a uterus pregnant about three months and a half, 595—Hydrocephalus, 771—On general dropsy in the fœtus, ib. — New form of blunt hook and sling for assisting delivery in cases of breech presentation, 772 — On prolapse of the funis during labour, ib.—Diseased placenta, ib.—Peculiar pigmentation of the nipples of a young woman affected with chorea, 910—Epithelioma of the cervix uteri in pregnancy, ib. — Post-mortem diagnosis of a nulliparous uterus, 911—Spontaneous rupture of the vagina, ib.
PATHOLOGICAL SOCIETY. — Hydatid cyst of liver bursting into lung, 592 — Addison's disease, ib. —Congenital disease of aortic valves, ib.—Subarachnoid hæmorrhage of spinal cord, 593—Thrombosis of internal carotids, ib.—Aneurism of anterior communicating artery of brain, ib.—

Tumour of left anterior cerebral artery, ib.—Ulceration of the larynx in typhoid fever, ib.—Infantile syphilis, ib., 663—Syphilitic disease of the heart, 663—Syphilitic pneumonia, 664—Cancer in both breasts, ib.—Sarcoma of the breast, ib.—Cystic calculi, ib.—Epithelioma of the tongue and lower jaw, ib.—Carcinoma lipomatosum, 665—Gangrenous ovarian cyst, ib.—Cancer of the male breast, 735—Insular sclerosis of the brain and spinal cord, ib.—Ulcerative endocarditis, ib.—Embolism of the pulmonary artery, ib.—"Distension diverticula," ib.—Tubercle of the pancreas, 736—Osteo-sarcoma of the superior maxilla, ib.—Tubercular lupus of tongue, soft palate, and gums, ib.—Hydatid disease of the heart, ib.—Syphilitic growth in the posterior cerebral sinuses, ib.—Glio-sarcoma of brain, ib.—Glioma of brain, ib.—Malformation of the œsophagus, ib.—Molluscum contagiosum, 837—Congenital stricture of the hepatic duct, ib.—Aneurism of the ascending aorta, ib.—Occlusion of the superior vena cava, ib.—Disease of the tricuspid and pulmonary valves, 838—Cirrhosis of the liver, ib.

ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—Pathology of chores, 559—Use of the actual cautery in the enucleation of fibroid tumours of the uterus, 625—An original view of the laryngeal movements, ib.—On diphtheria and its relations to so-called croup, 700—Spasmodic affection of the right arm and leg, 702—Sugar from the urine of healthy persons, 769—Aortic aneurism in the army, ib.—On the operation of abdominal section in cases of intussusception, 877

Medical Societies, the, 532

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

BIRMINGHAM AND MIDLAND HOSPITAL FOR WOMEN.—Saccular dilatation of the urethra; removal; cure, 625—Removal of a large soft fibro myoma by abdominal section; death, ib.—Cases of ovarian tumour simulating extra-uterine pregnancy, with complete extrusion of uterus and bladder; successful ovariotomy and cure of the extrusion, 592

BIRMINGHAM GENERAL HOSPITAL.—Syphilitic disease of the nervous system, 129

BRISTOL ROYAL INFIRMARY.—Nearly fatal case of poisoning by a known dose of carbolic acid; venous injection of ammonia; recovery, 451—Acute rheumatism, with hyperpyrexia, treated with cold-water coil, 528

CHRISTCHURCH (CANTERBURY, NEW ZEALAND) HOSPITAL.—Stricture of urethra; dilatation; cure, 734

CASHEL UNION HOSPITAL.—Empyema; thoracentesis, 492—Surgical cases, 768

DEVIZES COTTAGE HOSPITAL.—Ligature of the external iliac, 420

DEVON AND EXETER HOSPITAL.—Three cases of aneurism successfully treated by digital compression, 311

DORSET COUNTY HOSPITAL.—An extensive incised wound through the calf of the leg; important and satisfactory use of the carbolised catgut sutures, 801

DUNEDIN HOSPITAL.—Fracture of tibia and partial dislocation of astragalus; operation; recovery, 9—Traumatic aneurism; operation; recovery, ib.

EDINBURGH ROYAL INFIRMARY.—Surgical cases, 169—Extensive burns of lower extremities; recovery, 245—Loose cartilage removed from the knee-joint antiseptically; cure, 311—Anæsthetic leprosy of the left arm; amputation at shoulder-joint; recovery, 420—Two cases of amputation through the hip-joint; recovery, 591

GREAT NORTHERN HOSPITAL.—Traumatic emphysema without injury to the chest-walls, 129

GUY'S HOSPITAL.—Medullary sarcoma of spermatic cord and pelvis; intestinal obstruction; colotomy; temporary relief; death, 128—Cases illustrative of some of the diseases of the rectum, 344, 418—Cancer of the rectum; colotomy; death nine months subsequently, 450—Chloral as a local application for ulcers, 558—Case of empyema treated by free evacuation of the fluid, 624

HOSPITAL FOR THE EPILEPTIC AND PARALYSED.—Case illustrating the relation betwixt certain cases of migraine and epilepsy, 244

HUNTINGDON COUNTY HOSPITAL.—Epithelioma of the arm, developed on the cicatrix of a burn; amputation; mishap with Esmarch's bandage, 207

KING'S COLLEGE HOSPITAL.—Operative interference in cases of cleft palate, 661

LEICESTER INFIRMARY.—Dislocation of the sixth cervical vertebra forwards, with fracture of right transverse process and tip of left transverse process; fracture also of both laminæ; death on the seventh day, 346

LONDON HOSPITAL.—Notes of cases of disease of the nervous system, 51—Cases of fistula in ano, 490—Gastrostomy for cancer of the œsophagus, 527—Severe case of iodism; tracheotomy; recovery, 698

MIDDLESEX HOSPITAL.—Cancer of ovaries and peritoneum and umbilicus; compression of the common bile-duct; jaundice; death, 8—Spontaneous cure of an aneurism of the abdominal aorta; death by uræmia, 206—Cases of fissure of the anus, 311—Melanotic sarcoma of femoral glands, secondary to tumour over the heel; sarcomata in spleen and iliac glands, 449—Chronic ulcers in both legs; dry gangrene of both legs—gradual in right, sudden in left, 875

MILLBANK PRISON HOSPITAL.—Persistent headache; partial aphasia; death by coma, 168

MOORFIELDS OPHTHALMIC HOSPITAL.—Syphilitic keratitis at an unusually early age, 876—Suppuration of the lachrymal sacs in infants, ib.

NEWCASTLE-ON-TYNE INFIRMARY.—Notes on a case of cancer of the stomach, 52—Left hemiplegia; double optic neuritis and syphilitic choroiditis; motor power regained before sensibility; convulsion; death, 346—Male hysteria, ib.

NORTH RIDING INFIRMARY, MIDDLESBOROUGH.—Strangulated inguinal hernia; aspiration; recovery, 278—Loose cartilage in knee-joint; removal on the antiseptic system; recovery, 312

ROYAL HANTS COUNTY HOSPITAL.—Severe neuralgia in the tract of the right dental nerve; operation; recovery, 624

ROYAL HANTS INFIRMARY.—Strangulated inguinal hernia; operation; rapid recovery, 700

ROYAL WESTMINSTER OPHTHALMIC HOSPITAL.—Cases of glaucoma, 345, 418

ST. ANTOINE HÔPITAL, PARIS.—Cases of syphilitic headache and neuralgia cured by calomel in small and repeated doses, 662

ST. BARTHOLOMEW'S HOSPITAL.—Intense and chronic neuralgia in the tract of the right dental and auriculo-temporal nerves; operation; recovery, 8—Two cases of rheumatism; recovery, 167—Calculus in a girl three years of age, 244—Vesical calculus in a boy eight years of age, with symptoms all his life; lateral lithotomy, 310—Strangulated umbilical hernia in a woman; gangrenous intestine; fæcal fistula made; death six days after operation, 590—Compound depressed fracture of skull; paralysis of right arm; elevation of depressed portion of bone; recovery with useful arm, 733—Hydatid tumour of liver and right pleura; puncture, followed by collapse, peritonitis, and suppuration within the mother cyst; free opening, permitting discharge of numerous hydatid cysts; pleuro-pneumonia; death; autopsy, 799

ST. BARTHOLOMEW'S HOSPITAL, CHATHAM.—Five cases of ligature of the femoral artery with antiseptic catgut, 835

ST. THOMAS'S HOSPITAL.—Hæmorrhage following tooth extraction, 527—Case of hydrophobia, 589—Aneurismal varix of left common iliac vein; compression of aorta; gangrene of intestine, 834

SOUTH LONDON OPHTHALMIC HOSPITAL.—Two unusual cases of injuries to the eye, 277—Embolism of branches of the arteria centralis retinæ within the eye; with remarks, 491

STANLEY HOSPITAL, LIVERPOOL.—Successful amputation at the hip-joint, 699—Successful case of herniotomy; reduction of large masses of omentum, 876

TEMPORAIRE HÔPITAL, PARIS.—Case of diabetes, 836

UNIVERSITY COLLEGE HOSPITAL.—Two cases of sloughing of arteries, 50—Depressed fracture of skull; trephining; fungus cerebri; death, 206—Aneurism of the left femoral artery in Hunter's canal; ligature of femoral artery; cure, 557—Two cases of compound fracture of the lower end of the humerus, 767

WARNEFORD HOSPITAL.—Artificial respiration in paralysis of respiratory centres, 558

WESTMINSTER HOSPITAL.—Case of septicæmia; periostitis; pericarditis; death in three days, 276—Surgical cases and notes, 662

WEST LONDON HOSPITAL.—Two cases of retention of urine from laceration of the urethra; catheterism; good results, 277—Two cases of internal urethrotomy for narrow, non-dilatable strictures; good results, 800

YORK COUNTY HOSPITAL.—Ovarian tumour; ovariotomy; recovery, 699
